

Amount Requested: \$250,000

In general, efficiencies fuel job growth at the Center for Discovery. The Center is the largest employer in Sullivan County and continues to be the single largest job creator. They have projected to add 200 jobs in 2010. The targeted improvements include high efficiency lighting and 49.7kW photovoltaic electricity generation system. These physical improvements to its facility will save between \$15,000 and \$20,000 annually.
